GreenRoots

CLIMATE JUSTICE

AFFECTING CHANGE THROUGH COMMUNITY LEADERSHIP

ENGAGE EMPOWER IMPLEMENT

GreenRoots is a resident-led organization working to achieve environmental and climate justice in the frontline, BIPOC communities of Chelsea and East Boston, Massachusetts.

We engage the most impacted residents, empower them with skills, knowledge and confidence to implement some of the most innovative projects in the region.

Our work focuses on both sides of the highly industrial Chelsea Creek and utilizes replicable models of community organizing, youth empowerment, policy, advocacy and collective action.

227 Marginal St.
Chelsea, MA 02150
